

GenAI Revolution

SIMPLIFY BUSINESS WORKFLOWS

What exactly will you receive?

- > You will collaborate with our experts to identify **strategic action areas** for the effective use of GenAI.
- > You will receive a **prototype** and a **high-level concept** to form the basis of further development.

Unlock transformative business potential with GenAI!

Discover how Large Language Models (LLMs) can revolutionise your business workflows and enable the automation and personalisation of tasks that previously required human intuition and creativity.

Our experts will present GenAI showcases as a source of inspiration. Together with you, we will outline innovative solutions designed to address your specific business challenges.

GenAI is redefining how your organisation interacts with customers and structures internal processes, opening up entirely new possibilities. We will support you at every step of your journey, from identifying new opportunities to validating practical prototypes.

Framework conditions: Our team of AI experts and digital designers will develop a prototype within seven days.

Workshop agenda

1. Discover
GenAI Showcase &
Opportunities

2. Evaluate
Prototyping &
Validation

3. Results
Presentation &
High-level Concept
